

FIG. 1

FIG. 2 is a perspective view of a system for monitoring and controlling a process. The system includes a computer 32, a sensor 36a, a controller 36b, and a display 38a. The sensor 36a is connected to the computer 32, which is connected to the controller 36b. The controller 36b is connected to the display 38a. The display 38a displays information about the process being monitored and controlled.
